

Expert retinal care by the area's leading vitreoretinal specialists

RETINA AND VITREOUS OF TEXAS (RVT) is dedicated to providing the best medical, surgical and laser care possible for sight-threatening diseases and conditions. Patients are treated by physicians and staff members who were handpicked for their compassion and patient-oriented professionalism.

RECOGNIZED EXPERTS The world-class physicians at RVT are all board-certified by the American Board of Ophthalmology and fellowship-trained in diseases, laser and surgery of the retina, vitreous and macula. Drs. Joseph Khawly, H. Michael Lambert, Arthur Willis Jr., Roberto Diaz-Rohena and Eric R. Holz graduated from some of the best vitreoretinal fellowship programs in the country. They are also recognized as international experts, and frequently speak nationally and internationally on all aspects of retinal disease, surgery and innovations in vitreoretinal disorders.

This year four of the practice's prominent physicians have been named to the 2009 edition of *Texas Super Doctors*.

INNOVATION AND CUTTING-EDGE ADVANCES The doctors of Retina and Vitreous of Texas are known for their research and use of leading-edge technologies in the study and treatment of vitreoretinal conditions. They have authored more than 200 publications, given more than 500 national and international lectures and invented more than 35 instruments used in their profession.
