

Retina and Vitreous of Texas (RVT) is dedicated to providing the best vitreoretinal medical, surgical and laser care possible to patients in a "user-friendly" atmosphere. Physicians and staff members are handpicked for their compassion and patient-oriented professionalism. Honor, ethics and trust are the keystones of the practice.

LAMBERT AGAIN NAMED TO TEXAS SUPER DOCTORS Founder Dr. H. Michael Lambert specializes in complicated vitreoretinal surgery and in the surgical treatment of macular holes, epiretinal membranes (macular pucker), retinal detachment, proliferative vitreoretinopathy, proliferative diabetic retinopathy, trauma and macular degeneration and is currently doing research in the treatment of these diseases via the Texas Foundation for Eye Research. Lambert, a former USAF jet instructor pilot and retired USAF Colonel and his partners, Drs. Joseph Khawly, Arthur Willis and Roberto Diaz-Rohena, have authored more than 120 publications, given more than

500 national and international lectures and invented more than 35 instruments used in their profession.

COMPASSION EXPERIENCE DEDICATION

RECOGNIZED EXPERTS The world-class physicians at RVT are all board-certified by the American Board of Ophthalmology and fellowship-trained in diseases, laser and surgery of the retina, vitreous and macula, and they all graduated from the best vitreoretinal fellowship programs in the country. They are recognized as international experts, and frequently speak nationally and internationally on all aspects of retinal disease, surgery and innovations in vitreoretinal disorders.
